MEGALIGHT TO PARTICIPATE IN 2008 NATIONAL HARDWARE SHOW

Go **Green** with Megalight's **Energy-efficient Lighting**

Megalight, Inc. is committed to saving the environment by saving energy. The use of standard, incandescent light bulbs wastes 90% of the energy they consume, which leads to the unnecessary burning of more fossil fuels and release of more greenhouse gases, contributing to the issue of global warming and other environmental concerns. At **Megalight**, we distribute energy-efficient lighting products. Our **Ecoview**® mission is Ecologically Friendly Outlook. Economically Friendly Savings. The **EcoWatt Series by Megalight** encompasses the elements of Safer, Longer, Greener, expressing the fact that our products save more energy, while lasting longer, and protecting the environment. According to company President Dillon Jiang, "Because of the increasing awareness of environmental concerns, demand for environmentally friendly products has allowed our energy-efficient lighting company to grow significantly in the past few years. **Megalight, Inc.** and its employees are personally committed to the Go Green movement and expect to continue to grow as more people realize the need for environmentally safe products in their own lives".

Megalight largely focuses on the adoption of **Compact Fluorescent Lamps and Light Emitting Diodes**. These **CFLs** use 75% less energy and last up to 13 times as long as incandescent ones. If every American household replaced only one of their incandescent bulbs with an energy-efficient **CFL**, it would save more than \$600 million in annual energy costs, and prevent greenhouse gases equivalent to the emissions of more than

800,000 cars. Our **Compact Fluorescent Lamps** also use 30% less mercury than those developed by other companies. **Megalight's LEDs** are a great line of products because they are **100% mercury-free** and guaranteed to last a lifetime.

In order to fulfill customers' needs, **Megalight** offers a large selection of energy-efficient lighting options. Our products allow customers to change their light bulbs less often and save money on energy costs, while protecting the environment at the same time.

Mini Spirals

Our **Mini Spiral compact fluorescents** come with a 9-year warranty and have a life of up to 12,000 hours. They can be used in the home, office, or garage, in areas of recessed lighting or where fixtures are protected from weather:

-  9W Mini Spiral (replacement of 40W)
-  13W Mini Spiral (replacement of 60W)
-  18W Mini Spiral (replacement of 75W)
-  23W Mini Spiral (replacement of 100W)

Spiral CFLs

Our **Spiral Compact Fluorescents** have a 10,000 hour life, save energy costs up to \$395 per bulb, and are for use in areas a recessed lighting, fixtures that are protected from weather, commercial/industrial buildings, public spaces, retail stores, home, or garage.

-  42W Spiral CFL (replacement of 150W)
-  55W Spiral CFL (replacement of 200W)
-  65W Spiral CFL (replacement of 300W)
-  85W Spiral CFL (replacement of 400W)
-  105W Spiral CFL (replacement of 500W)

CFL Reflectors

Megalight CFL Reflectors come with a 9-year warranty, have a 10,000 hour life and save up to \$53 in energy costs per bulb. They are for use in everyday sockets, have instant on and flicker-free starting, and last up to eight times as long as incandescent bulbs. Applications and uses include in the home, office, garage, areas of recessed lighting, or in fixtures protected by the weather.

-  11W CFL Reflector (replacement of 50W)
-  15W CFL Reflector (replacement of 65W)

 16W CFL Reflector (replacement of 75W)

 23W CFL Reflector (replacement of 90W)

PAR Reflectors

Our **PAR Reflectors** are specifically designed to replace everyday Floodlights. **Megalight CFLs** can save up to \$52 in energy costs per bulb and last 4 times as long as standard Floodlights; they have an 8,000 hour life and 7-year warranty. They may be used for spotlights, in the yard, home, office, or garage, as well as in fixtures protected by the weather.

 15W PAR Reflector (replacement of 65W)

 25W PAR Reflector (replacement of 90W)

Specialty CFL Globes and Candles

For use in lamps, reading lights, chandeliers, ceiling fans, and fixtures in the kitchen, bathroom, home, or office, **Megalight's CFL Globes and Candles** have a 7-year warranty, as well as a 6,000 hour life, and save energy costs of up to \$36 a bulb.

 9W Globe (replacement for 40W)

 15W Globe (replacement for 60W)

 7W Med Base Candle (replacement of 25W)

 7W Cand Base Candle (replacement of 25W)

Specialty CFL Fan Bulb

Specialty CFL Fan Bulbs have a 9-year warranty and a 10,000 hour life. These bulbs last up to ten times longer than the incandescent options, saving \$46 in energy costs. They are designed for use in the home, office, or garage, for lamps, ceiling fans, wall scones, and reading lights.

 9W Fan Bulb (replacement for 40W)

 12W 3-way (replacement for 30W)

 19W 3-way (replacement for 70W)

 28W 3-way (replacement for 100W)

 14W A-Bulb (replacement for 60W)

Light Emitting Diodes (LEDs)

As our most durable product, **Megalight's LEDs** last a lifetime. They have a 45-year warranty, attainable life of 50,000-100,000 hours, and each bulb saves energy costs of \$115. They are also mercury-free and can save a household 90% off their electric bill. Like the globes and candles, **LEDs** are used for table lamps, floor lamps,

reading lights, chandeliers, ceiling fans, and fixtures in the bathroom, home, or office. These **LED Nightlight and Globes** also have dimming capabilities.

 1W LED Nightlight (equivalent to 7W)

 1.1W LED Globe (equivalent to 9-13W)

 2.2W LED Globe (equivalent to 12-25W)

Linear Fluorescent Tubes

Our **Fluorescent Tubes**, used commonly in commercial/retail buildings, the home or office, and residential areas, have a 20,000 hour life.

 T5 Fluorescent Tube (equivalent to 54W)

 T8 Fluorescent Tube (equivalent to 32W)

Metal Halide Lamps

Metal Halide Lamps, available in standard or pulse start options, are designed for outside use. This includes stadium lighting, building and sign lighting, street lights, parking lots, as well as commercial, retail and industrial areas.

 Standard 175W Metal Halide Lamp

 Standard 250W Metal Halide Lamp

 Standard 400W Metal Halide Lamp

 Standard 1000W Metal Halide Lamp

 Pulse Start 70W Metal Halide Lamp

 Pulse Start 100W Metal Halide Lamp

 Pulse Start 320/350W Metal Halide Lamp

Fresh Air CFL

Megalight's Fresh Air CFL is a 26W air purifying CFL which replaces the incandescent 100W that can be used in an endless number of places in order to eliminate a variety of odors such as cigarette smoke, allergens, pet odor, bacteria, etc. Options for the **Fresh Air CFL** include in schools, homes, offices, locker rooms, restaurants, retail stores, bathrooms, hospitals, and many more.
